

Name \_\_\_\_\_

Week of March 4

**Each night you should read for 20 minutes and complete one task from the options below. Each choice must be in a different column.**

SS/Science	Vocabulary	Reading	Math	Writing
Begin searching for topic ideas for next inquiry project	Draw <b>one</b> picture that shows the meaning of two vocabulary words	Name the protagonist in your story; list 5 words you could use to describe him or her; do the same with the antagonist	Complete this week's review problems	Find two boring words in your story, replace them with stronger synonyms
Research: Learn three animals species that are found on the Galapagos Islands, and nowhere else in the world.	Complete the vocabulary crossword puzzle	Consider the book you are now reading. In what point of view is it told? Explain why the author chose this point of view to tell the story.	Earn a green light in <a href="#">Reflex Math</a> (cannot be completed on the same day you earn a green light in class)	Carefully read your story and edit for punctuation and capitalization
Watch Ask Doug: Is Pluto a planet?	Write or type three sentences that show the meaning of 3 different vocabulary words. Print or share.	Visit KidsReads.com. Scroll down to latest reviews. Read some, and list a couple of books you might like to read.	Complete the challenge problem solving - fractions.	Find two common nouns in your story that might work better as proper nouns Examples: change "car" to "Ford" or "market" to "Stop and Shop"
